

## AMESLARI – LETRAS “CITY STORIES”

Cada uma das letras está em uma página diferente do documento.

### 1. NEON LOVE

We dreamed of all that we could have  
We could face anything that life could throw at us  
But in no time it was dead  
Just like a neon sign that flickers out

Was it only my fault or are you to blame as well?  
Could we have tried harder or was it better just to end?

[Chorus]

Love,  
We did everything we could  
But it just wasn't enough  
We just flickered out  
It was neon love

It was perfect at the start  
But at some point the bomb went off and we were done  
I wonder what lit the fuse...  
But I guess it doesn't matter now, let's just move on

Love isn't meant to be understood  
It's just meant to be felt  
And there's nothing we can do about it anyway (so)

[Chorus]

[Solos]

[Chorus]

## 2. THE FIRE

So many things we'd like to see gone  
So many things we'd like to see destroyed  
So many bridges we'd like to burn,  
And erase from our minds

So many cords that we'd like to cut  
So many loose ends we didn't tie up  
So many regrets we'd like to forget

Let's throw it all in the fire, oh  
Throw it all in the fire  
And watch it all turn to ash  
Right before our eyes

Feelings struck me like a blizzard  
Couldn't see or think straight  
I was about to freeze to death

So I threw it all in the fire, oh  
Threw it all in the fire  
And watched it all turn to ash  
Right before my eyes

All the pictures of people we've cut ties with,  
All the bad things we wanna let go of  
Throw them in,  
Watch them burn  
Watch them turn to ash

Throw it in the fire, oh  
Throw it all in the fire  
And watch it all turn to ash  
Right before your eyes

### 3. START

Surviving isn't living  
Adjust your clock, you're running out of time  
Find your future in the closet,  
Leave your past behind the sofa

You've had it with your clothes,  
You've had it with your hair  
You are getting sick of lazing  
You need to move before it's too late

And you know it isn't easy to change your way of life  
But you know that it is just the thing you need

[Chorus]  
So go and do what you've got to do  
It will take time, but you know that it's all worth it  
And you can't think twice,  
Just start off and don't look back  
For what's gone is gone,  
Focus on the road ahead

There's nothing left to stop you  
You've got the whole world ahead of you  
So go out and be amazing,  
Whatever way you can

And you know it isn't easy, but it will pay off in the end  
You'll see you had it in you all along

[Chorus]

## **4. DANCE WITH ME**

The lights go down, the smoke comes up,  
The lasers shine...  
We're here now  
This feels like forever

Here with you, in this beautiful scene...  
I don't wanna leave the warmth of these arms  
This is forever

Hold me, kiss me, dance with me, oh...

## 5. MIRRORBALL

Everything's poles apart  
Everything's about fighting  
Why can't there be a middle ground?

Be careful what you say  
Words hurt much more than punches  
And those wounds are much harder to heal

[Pre-chorus]  
We've tried to fix the world a hundred thousand times  
But we just seem to've made it worse

[Chorus 1]  
No matter what we try, no matter what we do  
No matter if we dance, no matter if we don't  
No matter what we think, no matter what we say  
The world is still the same, the world is not ok  
And still the mirrorball is spinning  
Inside the disco in our heads

Just like a house on fire  
Everything is chaos  
People are looking for a way out

Some people pray, some people cry  
Some people fry their minds  
Some people just prefer to die

[Pre-chorus]

[Chorus 2]  
No matter what we try, no matter what we do  
No matter if we dance, no matter if we don't  
No matter what we think, no matter what we say  
The world is still the same, the world is not ok  
And still the mirrorball is spinning  
Inside the disco in our heads  
Inside the disco in our heads  
Inside the disco in our heads

## 6. HOLD TIGHT

Don't say, don't show  
Don't let the others know  
Who you are inside,  
The feelings that you hide

He's right beside you  
You're dying just to touch his hand  
You know he doesn't want you to  
But you can't hold back your thoughts

[Chorus]  
Hold tight  
It's gonna be a damn rough ride  
Your feelings will rollercoaster,  
But if you just hold tight  
I'm sure you will be fine  
I'm sure you'll be just fine

Even if you feel his arms  
Wrapped around you at night,  
You know that you can't,  
You just can't have it for real  
He's not like you

[Chorus] 2x

## **7. ORCA**

(Instrumental)

## **8. THE SHINING SUN**

Open the curtains, let the sun come in  
It's morning, last night's gone away  
The sun wakes you up to a beautiful day

Step outside, take a look at today  
The shining sun tells the world you've changed  
Remember today, 'cause today is when your life begins

Relax and see how beautiful life is  
With people and opportunities  
The sun hangs over all of those things  
And shines on

So, smile now  
And look at the world  
In the shining sun

## 9. BRIGHTNESS

It's in the way she talks  
It's in the way she looks  
You see it in her smile  
You see it in her laughter

She is glowing  
She is glowing

If you get close it just flows through you  
And you can't even look away  
Everyone around her can feel

The brightness that comes from her  
The brightness that comes from her  
The brightness that comes from her  
The brightness that comes from her

[Repeat]

## 10. SONG FOR THE BROKENHEARTED

Just like a river flows, life goes on  
You don't have to go through this  
It's just a heartbreak

You lie there in bed, staring at the ceiling,  
And you wonder what'd you ever do to her for this to happen  
It must have been something that's bigger than you both together  
And don't you think death is your only salvation  
From this hurricane that tears you apart every second  
Time and again

Don't, oh, think she's the only one  
And don't think you'll never love again  
I know you will  
Someday, when she's far from here,  
I know you'll find someone to love again

I think you know  
She would have walked away at the first chance she had  
Leaving you marooned and with nowhere to go  
She wasn't right for you, so don't you feel bad  
Stand up and face your sorrow,  
It will pass someday  
And then you'll go out in the sun and wipe your tears  
Once and for all

Don't, oh, think she's the only one  
And don't think you'll never love again  
I know you will  
Someday, when she's far from here,  
I know you'll find someone to love again  
Oh, someone to love again

## 11. GOODNIGHT SONG

No,  
Don't cry  
'Cause everything will be alright

Tonight  
Close your eyes

And sleep tight,  
My darling  
Rest assured  
There's no monster under your bed

So goodnight  
Goodnight  
Oh, goodnight  
Goodnight
